

Legal Translation

Accurate legal translation requires loyalty to the source text and to the context as well as use of correct terminology, tone, and style in the target language. The translation of a legal document will usually have the same legal effect as the original. At Turkish Word, we use experienced legal translators who are specialists in corporate, litigation, intellectual property, tax, and labor law. Other legal documents we translate include Powers of Attorney, Real Estate Contracts, Legal Agreements, Court Documents, Business Proposals and Contracts, Employment Contracts, and much more, utilizing the experience of professionals specialized in translating legal material. Please contact us with the details of your legal translation requirements.
